ALUMINUM RAILING

ENGINEERED TO PROVIDE SAFETY & SECURITY, WEATHERABLES ALUMINUM RAILING PROVIDES THE BEST IN BOTH STRENGTH AND DESIGN.

At Weatherables, we made a decision a long time ago to always stand by our values and only offer premium quality, superior grade products. This is exactly why we felt it was important, that despite what many others in the industry are doing, that we used an

AAMA 2604 compliant finish on our aluminum railing. The 2604 finish is rated for outdoor use and helps protect the railing from excessive chipping or fading.

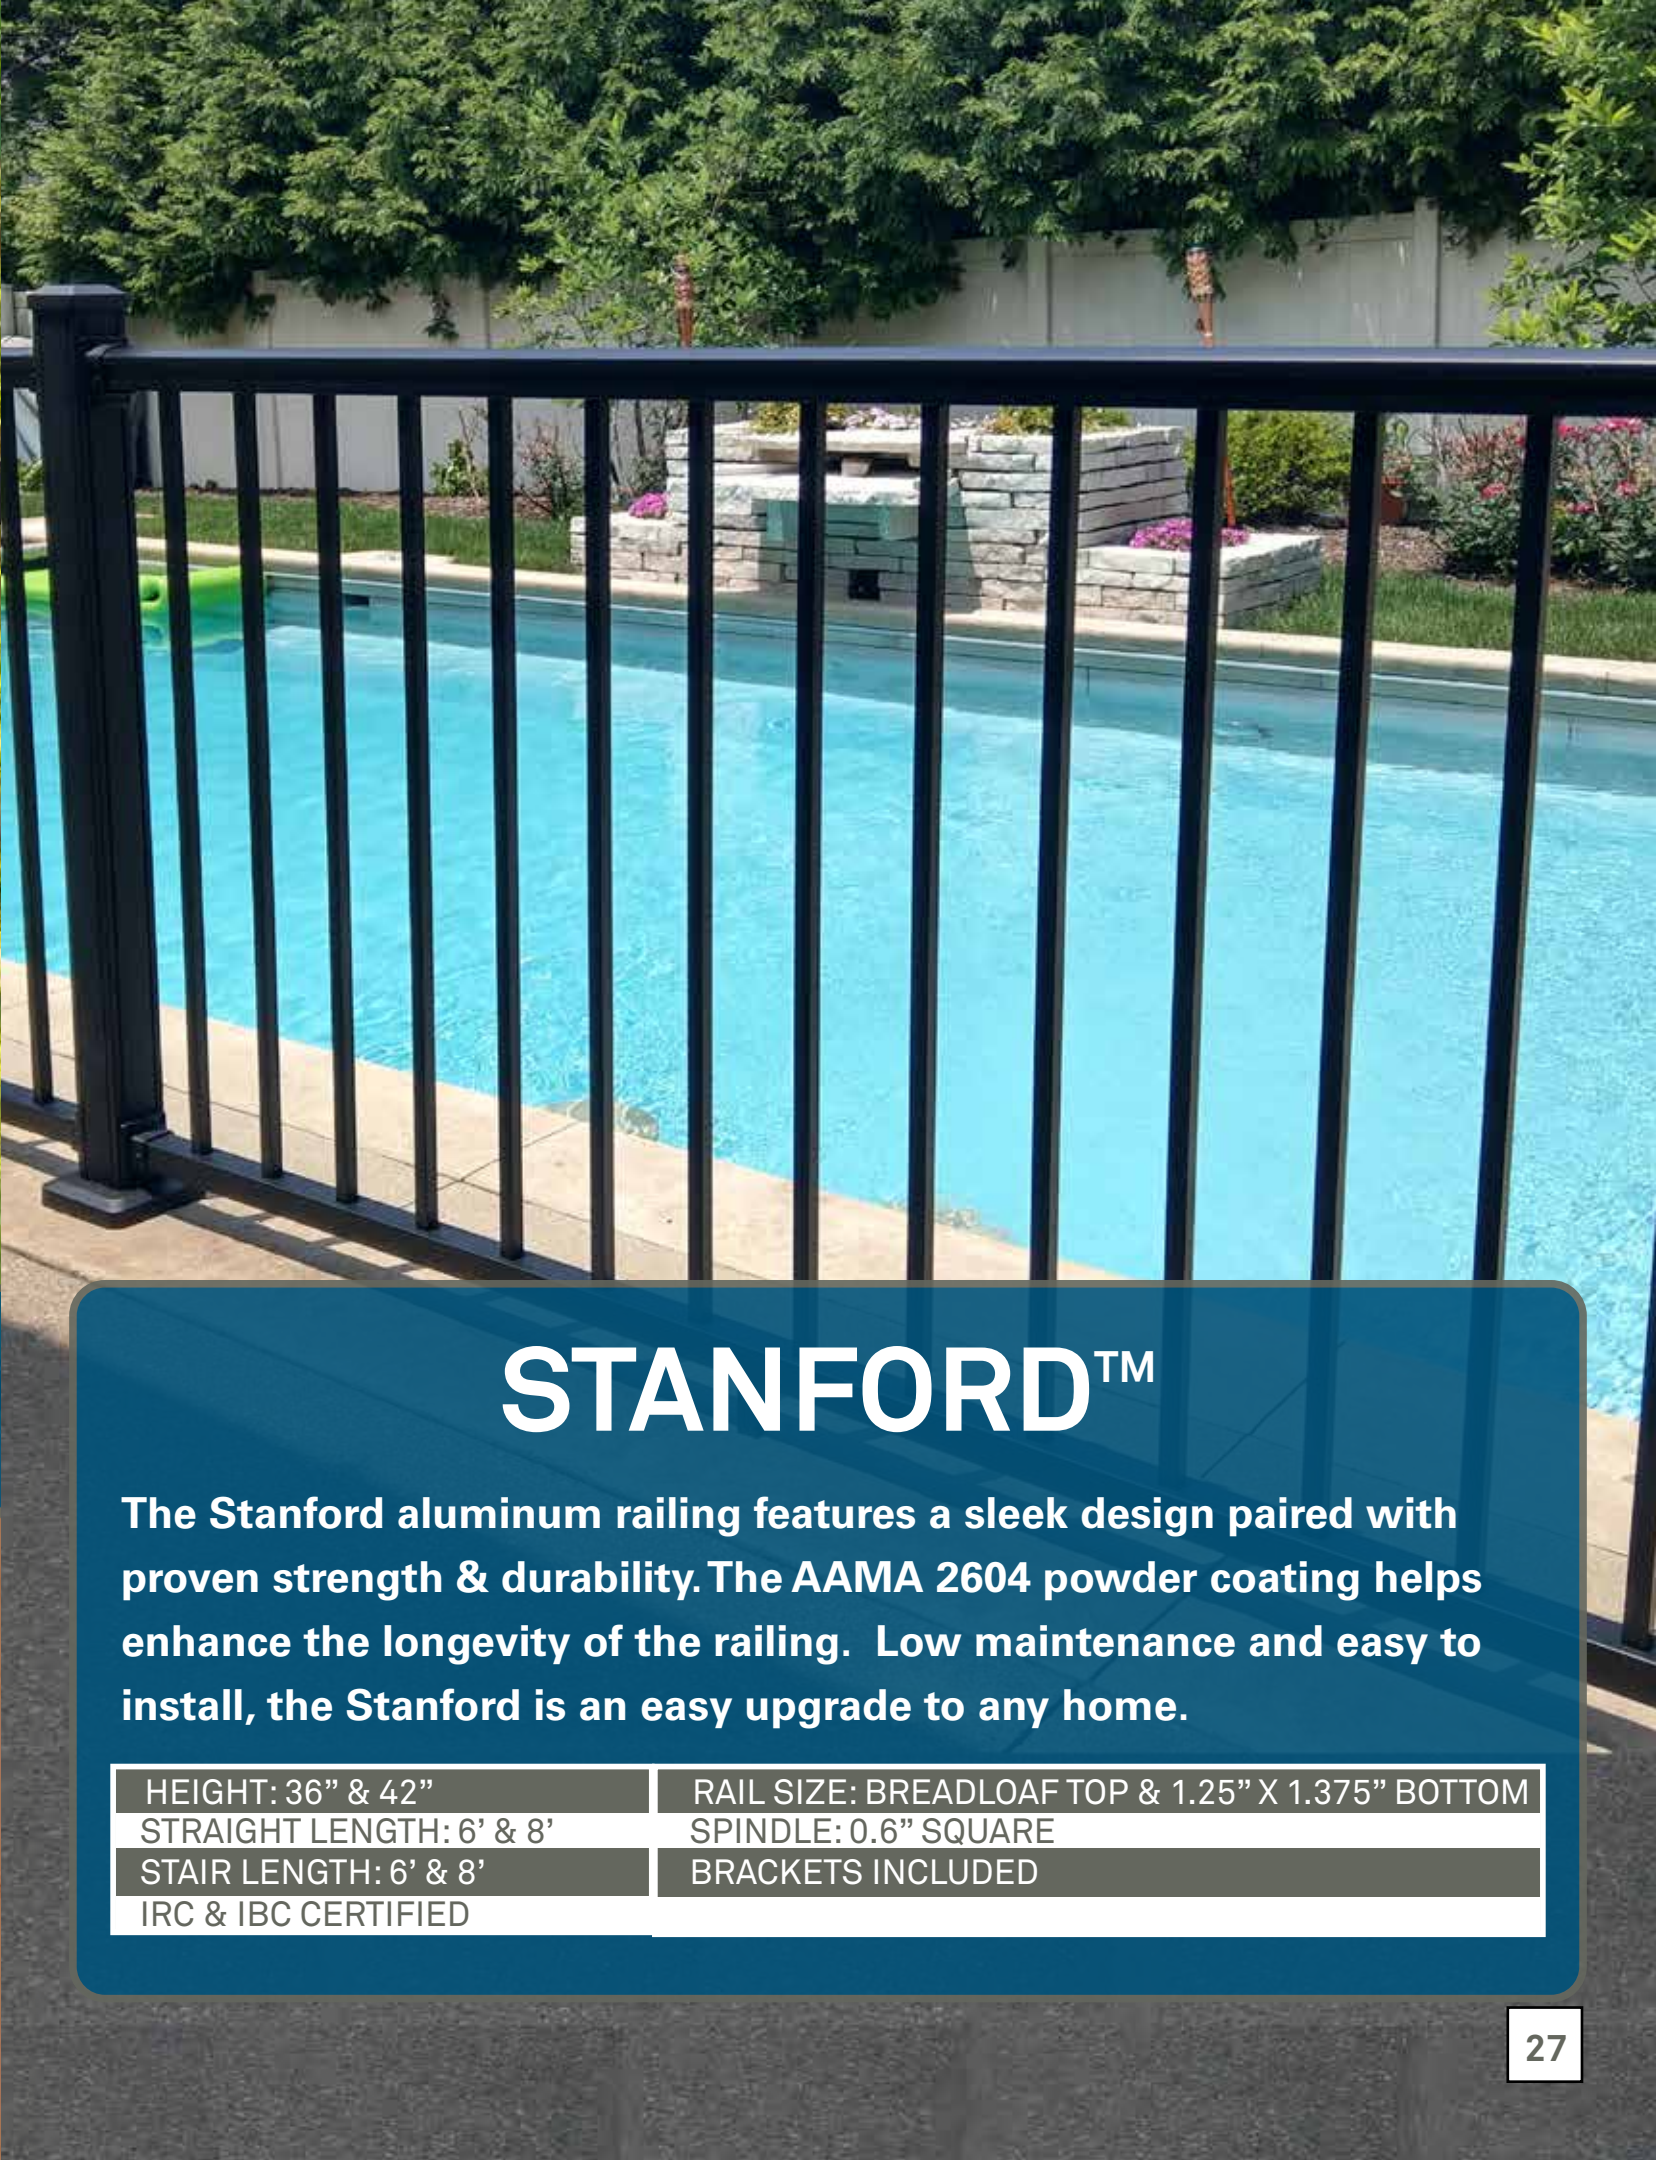

Offering a stylish, bold appearance and superior strength, Weatherables aluminum railing is a valuable upgrade to your home. Plus, each kit comes boxed with all of the brackets and fasteners required so whether your a DIYer installing your own railing or a seasoned professional, installation will be quick and easy.

ARLINGTON™

The Arlington aluminum railing is the newest edition to our aluminum railing line. Commercial grade and low maintenance, the Arlington is both stylish and strong. The AAMA 2604 coating offers a longer lasting finish and helps prevent rusting.
